## Piezoelectric Accelerometer

## Model 7703A-200 and -1000

- To +550°F (+288°C), Temperature Compensated
- Side Connector, 1" Hex
- Hermetically Sealed
- Low Base Strain Sensitivity
- Ground Isolated
- High Output/Modal Applications

### **DESCRIPTION**

The ENDEVCO® Model 7703A-XXXX ISOSHEAR piezoelectric accelerometer is designed for modal measurement on large structures and objects. The ISOSHEAR design is extremely stable and virtually insensitive to such environmental inputs as base bending and thermal transients. This line of accelerometers has been tested in a radiation environment up to 10<sup>8</sup> rads. They are also capable of measurement up to +550°F (+288°C). These units are hermetically sealed against external contamination. The accelerometer is a self-generating device that requires no external power source for operation.

The Model 7703A-XXXX features ENDEVCO's PIEZITE® Type P-8 crystal element, operating in shear mode. This unit exhibits low base strain sensitivity, high resonance frequency, and excellent output stability over time. Signal ground is isolated from the outer case of the unit. The accelerometer features a 10-32 side-connector. A low-noise coaxial cable is supplied for error-free operation. The model number suffix indicates acceleration sensitivity in pC/g; i.e., 7703A-1000 features output sensitivity of 1000 pC/g.

## **SPECIFICATIONS**

The following performance specifications conform to ISA-RP-37.2 (1964) and are typical values, referenced at +75°F (+24°C) and 100 Hz, unless otherwise noted. Calibration data, traceable to National Institute of Standards and Technology (NIST), is supplied.

### **NOTES**

- Low-end response of the transducer is a function of its associated electronics.
- Short duration shock pulses, such as those generated by metal-to-metal impacts, may excite transducer resonance and cause linearity errors. Send for TP290 for more details.
- 3. Charge output is temperature compensated
- 4. Maintain high levels of precision and accuracy using Endevco's factory calibration services. Call Endevco's inside sales force at 800-982-6732 for recommended intervals, pricing and turnaround time for these services as well as for quotations on our standard products.

Continued product improvement necessitates that Endevco reserve the right to modify these specifications without notice. Endevco maintains a program of constant surveillance over all products to ensure a high level of reliability. This program includes attention to reliability factors during product design, the support of stringent Quality Control requirements, and compulsory corrective action procedures. These measures, together with conservative specifications have made the name Endevco synonymous with reliability.
